- Apples are in season and found at the farmers' market now! There are 13 kinds of apples grown in Maryland. The look, shape, flavors, and textures vary with each type. Trying different varieties of the same fruit or vegetable can help you and your child discover your favorites!

## What's so great about fruits and vegetables?

Fresh fruits and vegetables have lots of vitamins, minerals and fiber...things your child needs to grow and be healthy!

Eating lots of different colored fruits and vegetables is a great way to provide your child with a variety of vitamins and minerals.

The fruits and vegetables at the farmers' markets are typically picked that day. That's why they taste so good!

## See how many activities you can check off this week:
